

## Fall Arrest Block with Steel Cable POWERTEX FBC

### Product information

The robust FBC series fall arrest blocks are designed to provide maximum protection and security in the most demanding environments. It's fitted with a top-quality steel wire rope, providing excellent protection if you fall over an edge. The solid black plastic housing and integrated shock absorber guarantee durability and reliability.

Equipped with a fall indicator that is integrated into the hook's swivel, and an integrated shock absorber, this block offers advanced safety features that meet the EN 360 standard.

The block is to be attached to an anchor point and the swivel hook to your safety harness. It is type-tested for vertical fall and against falling over an edge. It's available with a 6, 9, 12, or 18-meter long steel wire rope.

On top of the block, you'll find a swivel eye attachment point, and the block comes with a twist lock carabiner mounted to this swivel eye. A double-action aluminum hook with a rotating eye is connected to the wire rope on the bottom end. Finally, the block is RFID-equipped, completing the package.
